

Pool Renovations:

We are pleased to inform you that our pool vendor has confirmed the permit for the renovation work has been issued. We are a couple of weeks away from starting the process.

As many of you may have noticed, the condition of the pool floor has deteriorated significantly, causing black spots at the bottom. This issue stems from the breakdown of the pool floor and has begun to impact the pool's filtration system, making the renovation not only necessary but long overdue.

Rest assured, we are working closely with the pool company to ensure the pool will be fully functional and looking as best it can until the work is completed.
